Our Inspiration

Late Shri Mahavir Prasad Saraswat

January 1, 1942 -December 24, 2013

We are here laying a foundation in the loving memories of Late Shri Mahavir Prasad Saraswat for the future of India and we are performing a very sacred duty.

The Law of Nature is either you move forward or you have to move forward, you have to constantly work hard with determination and devotion.

From the Desk of Chancellor

J.P. SHARMA

Chancellor

P.K. University, Shivpuri (M.P.)

I take great pleasure in introducing you to Pt. Mahavir Prasad Memorial Ayurvedic College & Hospital (PMPMACH), an institution dedicated to social welfare and to nurturing enlightened individuals who can meet the growing demand for skilled professionals in the fields of technology and healthcare.

Along with providing quality education, PMPMACH is deeply committed to serving society through its healthcare initiatives. The Pt. Mahavir Prasad Memorial Ayurvedic College and Hospital, under PK University, is a 100-bed facility located at Village Thanra, Tehsil Karera, and District Shivpuri. Here, patients are offered free treatment and medicines. These efforts reflect our commitment to supporting the underprivileged and contributing to the well-being of the community. In essence, PMPMACH strives not only to educate the youth to become successful technocrats, managers, and doctors but also to shape them into responsible and compassionate human beings.

I extend my best wishes to all students and their parents, and I congratulate them on their wise decision to choose PMPMACH for a quality education and a successful future.

From the desk of Principal

It gives me immense pleasure to welcome you to Pt. Mahavir Prasad Memorial Ayurvedic College & Hospital, PK University, Thanra, District Shivpuri (M.P.).

Ayurveda, the ancient science of life, is one of India's greatest contributions to global healthcare. Rooted in holistic principles, Ayurveda emphasizes the prevention of disease, promotion of health, and maintenance of harmony between body, mind, and spirit. In an era where people across the world are increasingly seeking natural, sustainable, and patient-centered healthcare solutions, Ayurveda has gained remarkable global recognition and acceptance.

Today, the relevance of Ayurveda extends far beyond traditional healing. Its holistic approach to wellness, preventive healthcare, lifestyle management, and integrative medicine has attracted growing interest from researchers, healthcare professionals, and governments worldwide. This expanding global acceptance has created new avenues for education, research, clinical practice, wellness tourism, pharmaceutical development, public health, and international collaborations.

Committed to Excellence in Healing and Evidence-Based Quality Education, our institution strives to blend the rich heritage of Ayurvedic wisdom with contemporary scientific advancements. We provide students with a strong academic foundation, practical clinical exposure, research orientation, and ethical values that prepare them to excel as competent healthcare professionals.

Ayurvedic education today offers a bright and promising future. Graduates have diverse career opportunities as clinicians, academicians, researchers, healthcare administrators, public health professionals, wellness consultants, entrepreneurs, and experts in the Ayurvedic pharmaceutical and wellness industries. With increasing national and international demand for qualified Ayurvedic practitioners, scholars can contribute significantly to the advancement of healthcare while building rewarding professional careers.

Our vision is to be a center of excellence in Ayurveda, nurturing skilled and knowledgeable physicians and promoting holistic health in the community. Through quality education, innovative research, and dedicated healthcare services, we seek to preserve the authentic principles of Ayurveda while contributing to its growth and global outreach.

I invite aspiring students, researchers, healthcare professionals, and stakeholders to become part of our journey towards academic excellence, scientific innovation, and compassionate healthcare. Together, we can strengthen the legacy of Ayurveda and contribute to a healthier and more harmonious world.

CORE VALUES

The core values of Pt. Mahavir Prasad Memorial Ayurvedic College & Hospital are:

1. Freedom of Thought and Expression
2. Integrity
3. Professionalism & ethics
4. Leadership & Team work
5. Research-oriented Culture
6. Respect of the environment and its conservation.
7. Patient care
8. Social Service

OUR VISION:

To be a center of excellence in Ayurveda, nurturing skilled and knowledgeable physicians and promoting holistic health in the community.

OUR PHILOSOPHY

We believe in serving society through compassionate Ayurveda care for humanity. Our aim is to create a strong community of Ayurvedic physicians who not only heal but also contribute to building a healthier environment and society. Our philosophy lies on serving the society through Ayurvedic care with full humanity. Our aim is to create a pool of Ayurvedic Physicians who can care and create a healthy environment for the society.

A candidate lacking in the prescribed attendance and progress in any subject(s) in theory or practical/clinical in the first appearance may not be permitted to appear for the examination in that subject(s).

SCOPE OF AYURVEDA IN INDIA

The new mantra of urban living is going for the herbal way. The cosmetic sections at departmental stores display herbal. Ayurvedic products that claim to not just cure but also prevent any illness. Ayurveda or Science of life has its roots in India. The system cures and prevents diseases by eliminating their root cause.

According to Ayurveda, five basic elements, namely, earth, water, air, fire, space impact our wellbeing in more than one way. A correct balance of this five is needed to restore health. Analysts say that almost 80 percent of Indians use Ayurvedic treatment either in its entirety or combining it with allopathic medication. As lifestyle disease grips urban population, awareness about the world's oldest medicine increased phenomenally. The increasing demand for Ayurvedic doctors across pharmaceutical companies and government hospitals is due to the trust developed by the alternative medicine as the herbal route to curing diseases.

The Department of Ayurveda

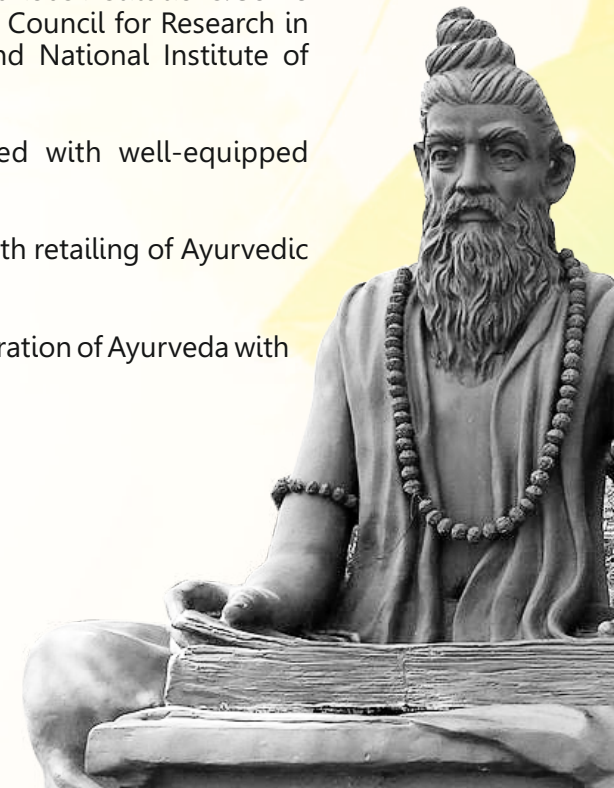

Yoga & Naturopathy, Unani, Siddha and Homeopathy (AYUSH) was established by Government of India to support and promote research and education in the field of Ayurvedic Science. Graduate training prepares you for a research career in institutions from health, medicine, agriculture and environmental sectors. Apart from that, pharmaceutical, food and beverages sectors also recruit graduates in a big way.

Students interested in post graduate studies have as many as 20 specialized fields to select from. This can be attained by pursuing courses leading to Masters of Medicine (MD-Ayu) / Master of Surgery (MS-Ayu) degree. Some of the popular specializations are Kaya Chikitsa, Panchakarma, Dravyaguna, Shalya, Shalakya and Prasuti tantra, Rasasatra and Kshar Sutra. Apart from MD specialization you can also go for PG Diploma programmes.

Research programme like PhD is essential for taking up research at various institutions. Some of the institutes that offer doctorate programmes include Central Council for Research in Ayurveda and Siddha (CCRAS), Tilak Ayurveda Mahavidhyala and National Institute of Ayurveda (Jaipur & Jamnagar):

- 1) Government hospitals and privately-held ones are endowed with well-equipped Ayurvedic units.
- 2) Ayurvedic doctors also set up their independent clinics along with retailing of Ayurvedic medicines.
- 3) Ayurveda doctors are employed at various wellness centres. Integration of Ayurveda with wellness therapies at resorts & spas.
- 4) Supervisory and research roles with pharmaceutical industry like, Dabur, Zandu, Himalaya and Arya VaidyaSala.
- 5) Ayurveda doctors are employed for drug research, various companies grant scholarships to deserving students

Note:- To be able to practice Ayurveda. BAMS degree holders must be registered at the respective state council to abide with the Indian Medical Central Council Act. The registration with Central Council of Indian Medicine (CCIM) is necessary for a national wide practice.

FUTURE DEGREES AFTER BAMS

A BAMS doctor can go for following degrees after the completion of the degree:-

1. MD/MS (AYURVEDA).
2. MBA (Hospital Healthcare Management).
3. MPH.
4. M. Sc Health Sciences.
5. M. Sc Nutrition.

CAREER OPTIONS AFTER BACHELOR OF AYURVEDIC MEDICINE AND SURGERY :

Today we are having a lot of opportunities available for BAMS graduates. These are the fields that are available for a BAMS graduate to build a successful career:-

1. General Practice / Clinical practice.
2. Research / Academic / Teaching.
3. Hospital and Healthcare Administration.
4. Drug Manufacturing.
5. Health Supervisor.

MISCELLANEOUS:

Students can also go for Medical transcription, medical tourism, medical event management, medical journalism, medical photography and documentation. BAMS graduates can complete LLB and work as legal medical advisor and there lies is a great potential in manufacturing of equipment required for Ayurvedic treatments like Panchakarma.
